

Security Checklist

Tips:

- Review your share portfolios regularly, so you're quicker to detect unauthorised activity.
- Turn on two-factor authentication, which can add an extra layer of security.
- Register for a PO Box or lock your letterbox to help prevent mail theft.
- Ensure you have provided your most up-to-date contact details to your stockbroker, share registries, and financial services providers.
- If you receive a new bank card or correspondence that is unexpected, like an update on how your shares are held, the creation of a new account, a notification of sale of your shares or confirmation of a change in contact details, don't ignore the correspondence.
